is an APP that allows the young generation to explore and develop STEM skills. It will Empower Girls to feel more confident to challenge themselves to become experts and be successful. So, digitally, GIRLS will be able to learn, to play, to read and to self-mentor... communicating with other Girls around the world.

**D-Cipher**

will introduce Girls

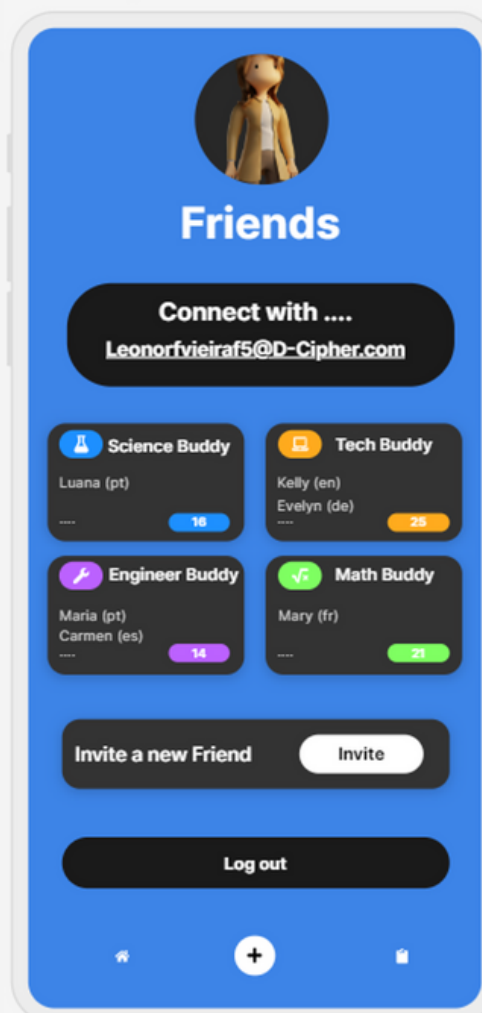

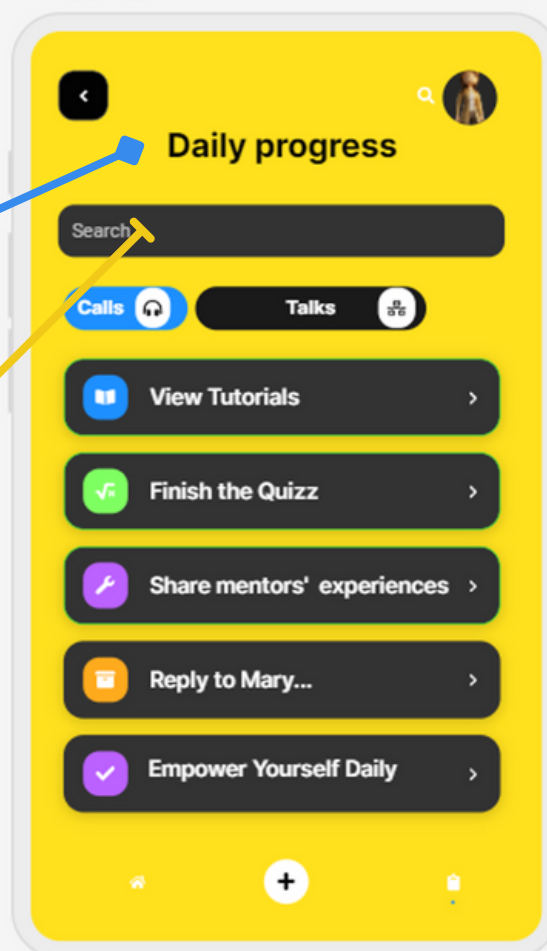

to the most Inspiring WOMEN in the global STEM concepts and **IMPACT GIRLS' FUTURE LIVES!**

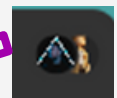

After **downloading the app** and **signing in** (screen on the previous page), the user will be led to the Home screen (above on the left).

Here the user will find the 4 categories: **Science; Technology; Engineer and Math.**

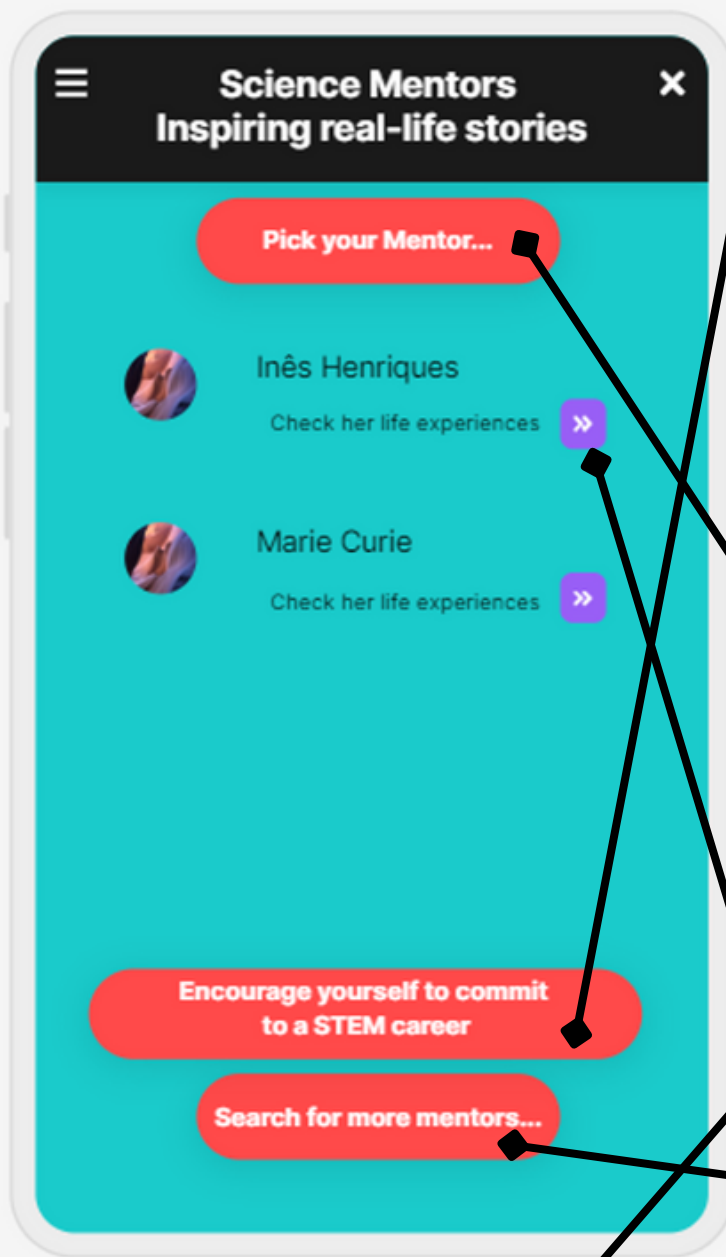

Depending on the choice of what she wants to **decipher, learn or research**, the Girl will access the category and all its solutions: **quizzes; tutorials** with experts; **self-mentoring; talks, calls** with Girl Friends and can **monitor her daily progress** in STEM knowledge (screen above on the right).

Now, in this new screen - **Friends** that was accessed by clicking on the images of the categories from the last screen,

each Girl can also discover new users, build a network of contacts and connect and challenge them to decipher all kinds of new codes, formulas and subjects.

Are GIRLS looking for that last push to encourage themselves to commit to a STEM career?  
Nothing like accessing the app and...

## D-Ciphering

— so GIRLS, why not look towards some of the most Inspiring Women of all time?

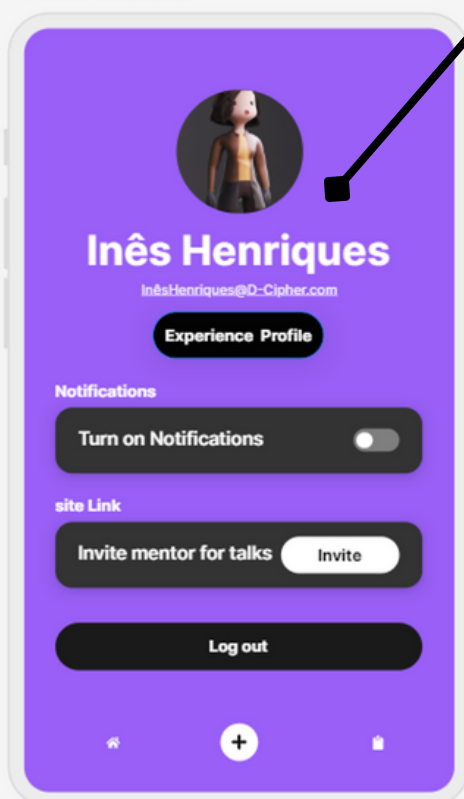

Pick your mentor...  
and...

Below are some inspiring real-life stories of STEM's greatest women in the specific STEM category chosen in the Home screen.

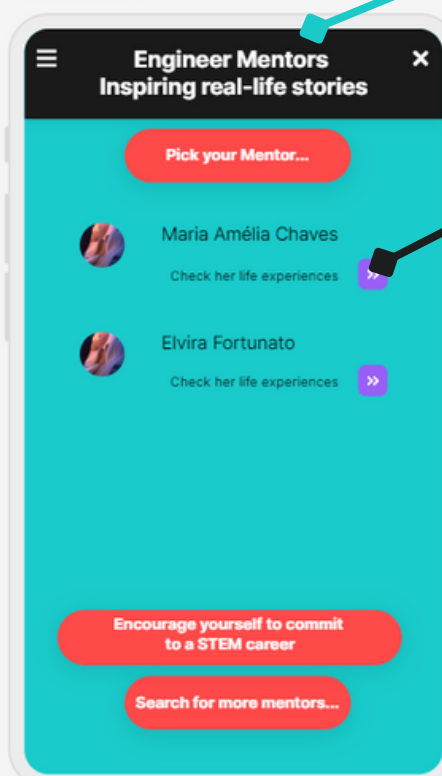

Mentor picked...GIRLS can explore and listen to the mentors' tips and study as much as possible...

They can search for more mentors in the same category or in other categories...
